Train as an OD Virtual Mentor

Are you a Health & Care OD practitioner with previous mentoring experience?

We are really excited to continue to grow our successful Do OD OD virtual mentoring programme and offer opportunities for 10 more OD virtual mentors to be trained.

We are building a national OD virtual mentoring network where OD practitioners and those working in change and transformation can access an experienced OD mentor, using a virtual process. We will also be seeking mentees from our NHS & Care organisations and systems through the Do OD network as well as through regional & local networks.

Our aim is to develop internal capability and capacity to enable change & transformation, to utilise and share experience & wisdom already in our systems.

What will you gain?

- High quality training in mentoring in the virtual space
- An opportunity to share your learning & experience with others
- Development and support throughout from Do OD, through OD supervision & development sessions & action learning reviews
- Opportunity to work with 2 mentees from across the country

[Click here to apply online](#)

You will need to be available for:

- a virtual briefing session on **10th October** from 1pm-2:30pm
- three virtual consecutive training sessions on **18th, 19th and 20th October** from 1pm to 5pm

Please only apply if you can make all of these sessions.

Once trained, you will virtually mentor two OD practitioners. This will involve three virtual sessions (approx. 90 mins) with each mentee over the course of four months. See our FAQs for more info- if you'd like to chat before applying, email do.od@nhsemployers.org and we'll give you a call.

Closing date: Wednesday 31st August at 5pm
